AGIFODENT

Created and Registered in Granada (Spain) September 2002

AGIFODENT born initially in order to inform, **train and educate all users and institutions in matters of European Programs**, new technologies and free software because they provide possibilities, benefits and services that are essential, daily and more widespread every day . In particular, to promote participation in European programs and the use of **ICT** by providing information, training and processing.

AGIFODENT is a big umbrella educational organisation who has a **private VET school** and a **private ADULT school**. We are intermediary organisation providing schools for mobility projects, job shadowing projects, and **European training courses** too.

Why AGIFODENT is participating in this project?

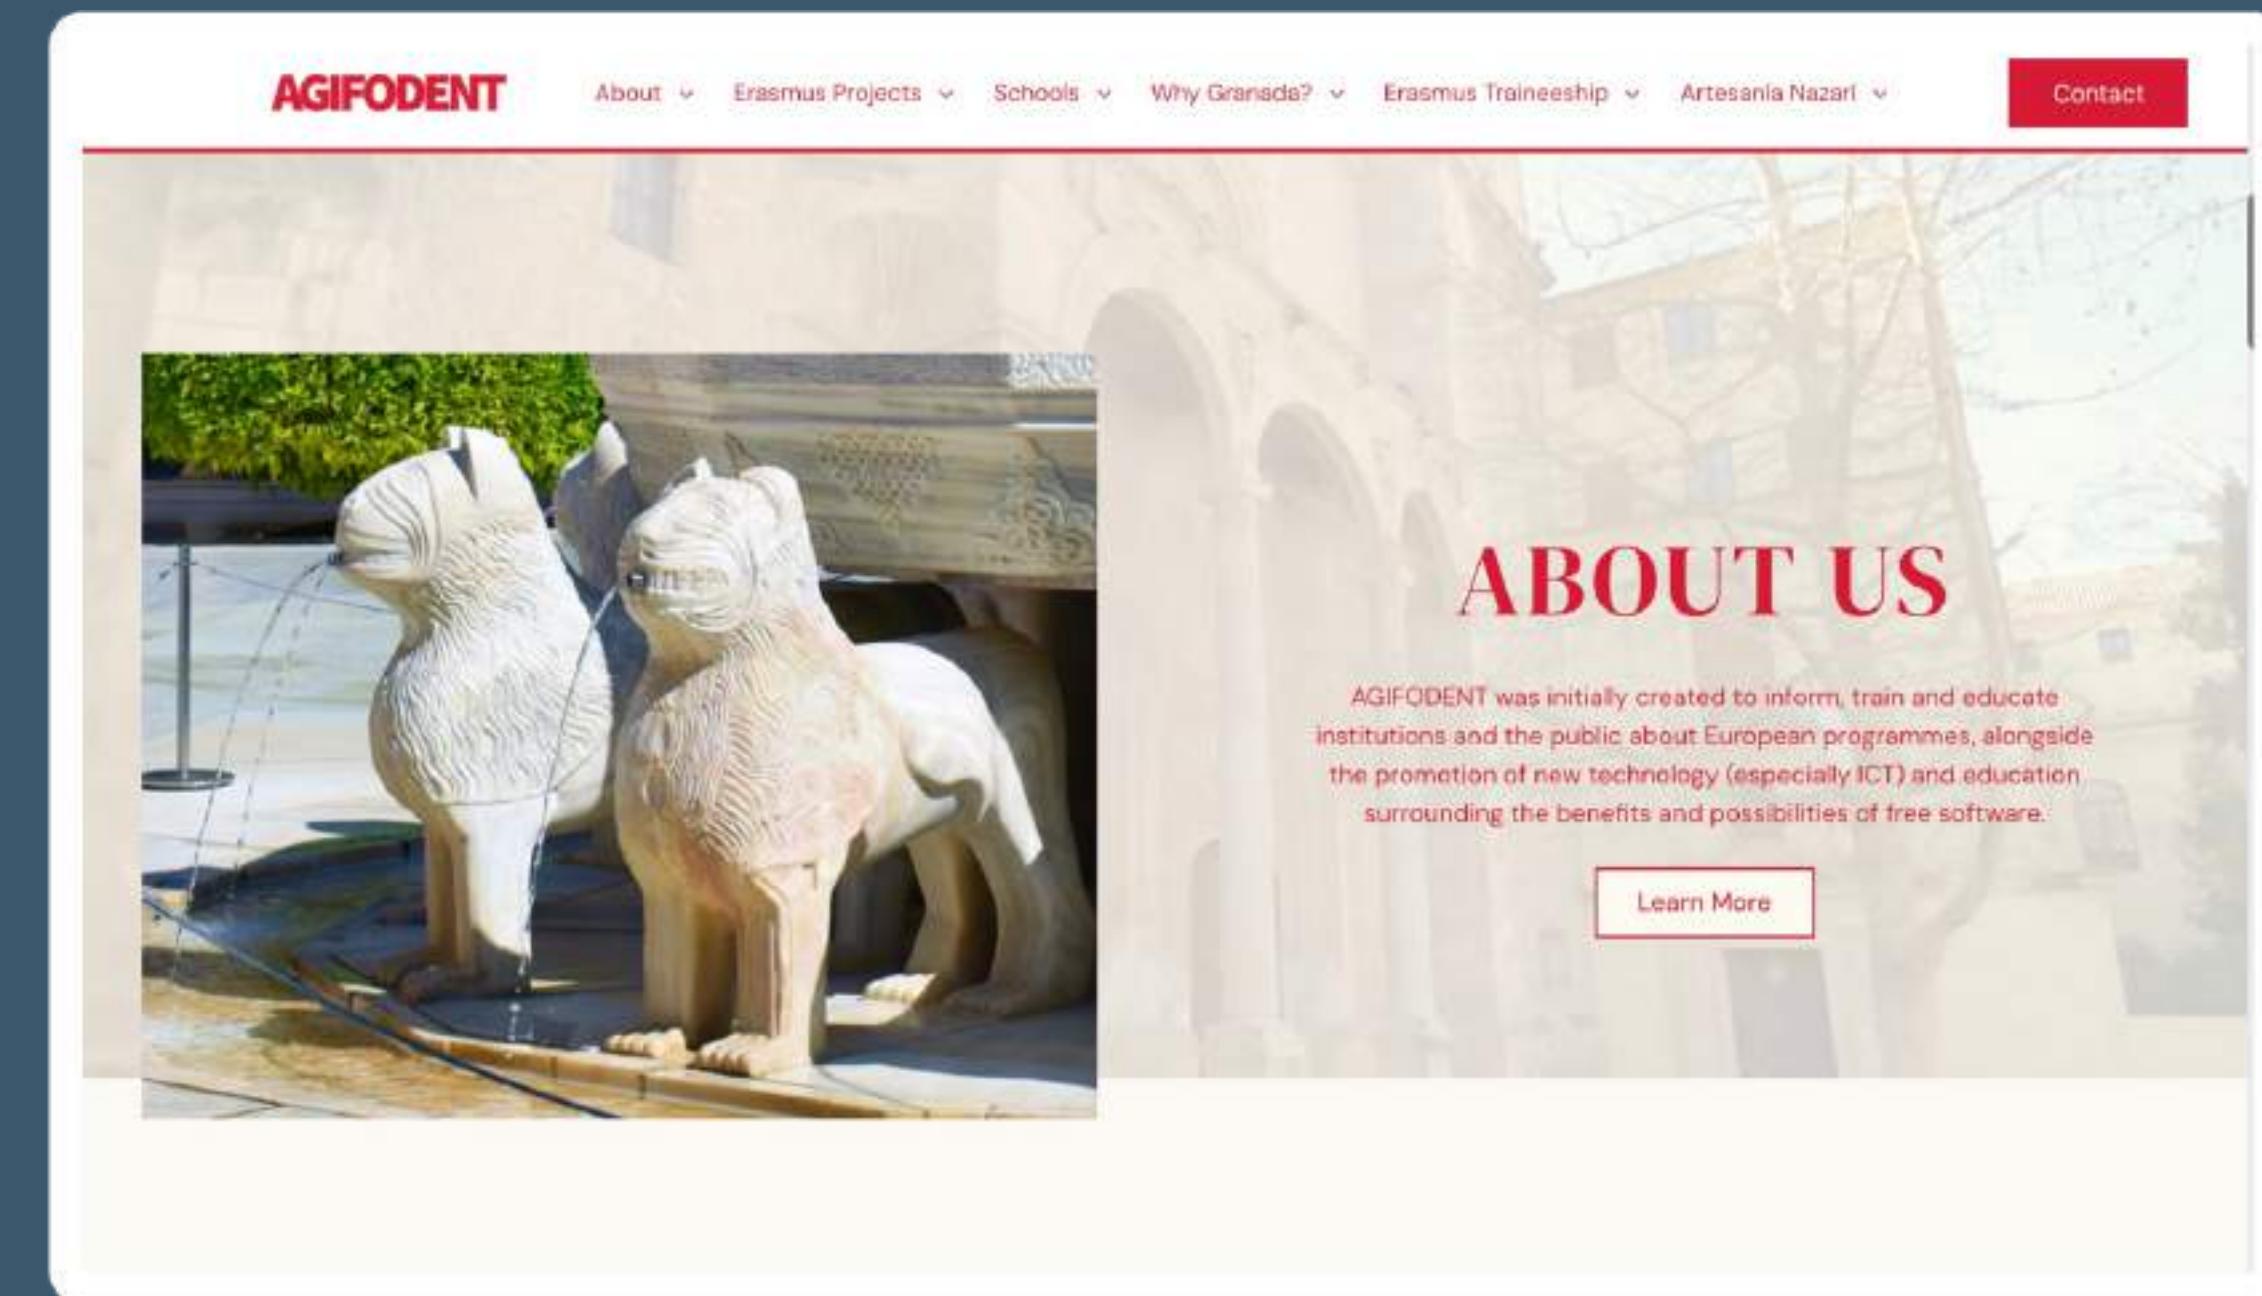

The main objective of AGIFODENT is to participate in training activities in the areas of European programs, in order to:

- Share knowledges between partners
- Learn knowledges from other partners
- Share experiences with other countries

IN BRIEF:

To learn the “know how” from other people for a better Education for everybody
